Office Memorandum • UNITED STATES GOVERNMENT

TO :

DATE: 13 December 1951

FROM :

25X1A9a

SUBJECT: Report for Week 6-13 December 1951

1. Received call from Colonel Bogue, Director of the Strategic Intelligence School, indicating that he was very pleased with the presentation made by ORR (both [REDACTED] and the panel of Division Chiefs) but was somewhat disappointed with the OSI program which consisted of the [REDACTED] presentation plus the answering of questions by [REDACTED] himself. I suggested to Colonel Bogue that he put his thoughts in writing and we would then attempt to comply with his wishes so as to make our Agency contributions to his course the most profitable for the officer-students.

2. Colonel Bogue, Director, Strategic Intelligence School, also requested that I give a presentation on the "Philosophy of Communism" at his next course. I told him that he should put such a request in writing and that we would be glad to try and comply.

3. The letter to Agency officials announcing the forthcoming Orientations Course to be conducted at the Department of Agriculture on the 8th, 9th, 10th and 11th of January was prepared and hand-carried after signature by Colonel Baird, to Management. Management guaranteed to Paul that they would give it personal attention in the clearance process with the DD/A. We will follow up to see that there is no delay.

4. Colonel Baird has been presented with a copy of the proposed scheduled content for the next Orientations Course. Suggestions from [REDACTED] and others, have been incorporated. Colonel Baird has given the green light to firm up the content and the speakers, since this is basically essential before visual aids and many other items can even be discussed. As of today the greater number of proposed participants have signified their availability.

5. Last Monday, 49 were in attendance at the Indoctrination Course. On Tuesday, 43 attended, making a total for this week of 92.

6. [REDACTED] AD/ORP, stated that some of his people had gone through the Indoctrination Course and had spontaneously and voluntarily expressed their satisfaction that they were told about the Central Intelligence Agency as soon as they came aboard.

25X1A9a 7. Innumerable items have been discussed regarding the finishing of the Orientations Room, painting, carpeting, audio-system, etc. The biggest problem of all, namely ventilation, has been discussed with Colonel Baird and Mr. [REDACTED]. A survey of this situation is being made, and Mr. [REDACTED] has promised an official report.

25X1A9a 8. At my suggestion, Mr. [REDACTED] has been attending some of the detailed indoctrination courses conducted by offices in CIA. I suggested that he record his travels and his impressions for the benefit of this office. So far he has found the experience most profitable.

25X1A9a 9. A call was received from Major King of the CIC, Fort Holabird, asking me to make a presentation at the Counter Intelligence Course School in February. I suggested that he put his request in writing.
